Top Skills

Data Structures
Java
Spring Boot

Kashish Mehta

Software Engineer at NielsenIQ
Pune, Maharashtra, India

Summary

A skilled Software Engineer with more than 3 years of experience, specializing in Java, Spring Boot, and API development. Adept at implementing robust solutions using Data Structures and Algorithms to optimize performance and resolve complex issues. Proven track record of enhancing system integrity and efficiency through meticulous coding practices and Spring Security measures.
DSA | Java | Spring Boot | PostgreSQL | Git | Linux | Machine Learning| MongoDB.

Experience

NielsenIQ
Software Engineer
October 2022 - Present (3 years 5 months)
Pune

I've crafted multiple APIs, streamlining the upload and processing of currency data across various modules.
Implemented robust Spring Security measures to fortify transactional data integrity.
Played a key role in identifying and resolving system bugs, ensuring uninterrupted functionality and user satisfaction.

ACS Solutions
Software Engineer
April 2021 - October 2022 (1 year 7 months)
Noida, Uttar Pradesh, India

At ACS Solutions, I elevated the myStore Mobile App, utilizing Python. I led the integration of features for visualizing Barter Application reports and implemented a country-wise rollout.
Conducted data extraction, cleaning, and processing, followed by in-depth data analysis, presenting actionable insights. Developed a machine learning solution to predict post-discharge hospitalization likelihood, aiding therapists in determining appropriate patient care levels.

DataTrained
Data Science Intern
March 2021 - March 2021 (1 month)
Noida, Uttar Pradesh, India

Education

Liverpool John Moores University
Master of Science - MS, Data Science · (June 2020 - May 2022)

International Institute of Information Technology Bangalore
PGDM, Data Science · (2020 - 2021)

Kurukshetra University
Bachelor of Commerce - BCom, Business/Commerce, General · (2014 - 2017)
